A WORD ABOUT QUALITY

Gentek delivers the confidence and value only a true leader can provide. We proudly stand behind our products with the full faith of our more than 55 years of manufacturing expertise and some of the strongest warranties in the industry. Our voluntary participation in rigorous quality certifications and independent testing is further assurance you have made an excellent selection for your home.

A MORE SUSTAINABLE CHOICE

The home that protects you can also help protect the environment. As a durable product with a long service life, vinyl soffit such as those manufactured by Gentek have been shown in a cradle-to-grave Life Cycle Assessment study commissioned by the Polymeric Exterior Products Association (formerly the Vinyl Siding Institute) to have a smaller environmental footprint relative to competing materials.¹ In addition, the study found that the impact of vinyl siding on global warming potential is 40% less than fiber cement and 83% less than brick and mortar.² And because it never needs to be painted, vinyl siding also helps prevent paint, stain and other maintenance-related products from being released to the environment.

A LIFETIME OF PROTECTION

Sequoia Select Ultra-Premium soffit is backed by a lifetime limited, non-prorated, transferable warranty with hail protection and lifetime fade coverage.[†] For complete warranty information, including limitations, visit www.gentekinc.com/support/warranty/ or contact your Gentek Sales Representative.

INDEPENDENTLY TESTED AND CERTIFIED

As tested in an independent program sponsored by the Polymeric Exterior Products Association, Sequoia Select Ultra-Premium solid soffit has earned ASTM D3679 certification, the industry's highest standard for quality.
