 GENTEK®

INTEGRATED MINI BLINDS

ON SELECT SLIDING PATIO DOORS

EVERYDAY BEAUTY AND CONVENIENCE

Gentek sliding patio doors offer the added option of an integrated mini blind sealed in the insulated glass unit. This sleek design innovation keeps the blind free from dust and damage, while allowing easy fingertip control to lift and tilt the blind with a single operator.

ADVANCED DESIGN TECHNOLOGY

- A convenient, single operator makes it easy to lift and tilt the blind for sunlight and privacy control (A)
- No-slip gear belt for smooth lift and tilt operation of the blind (B)
- A single cord-winding shaft provides improved “stack,” which helps prevent the blind from coming in contact with the glass surface (C)
- Self-leveling bottom rail allows the blind to be re-leveled if it becomes unbalanced (D)

EXPERTLY CRAFTED FOR ENDURING QUALITY

- The blind remains virtually dust-free in a sealed insulating glass unit
- Enhanced safety – an integrated, cordless blind removes the risk of children or pets getting entangled in the cords
- Rigorously tested at 15,000+ cycles, far exceeding the industry standard of 3,500 cycles
- Withstands doors opening and closing
- Backed by a **20-year limited warranty**² for added peace of mind

ENERGY-EFFICIENT OPTIONS³

- ENERGY STAR[®]-certified sliding glass door options available
- **BarrierXP[®] ThermD LT** – Double-paned insulated glass unit with one pane of Low-E glass and stainless steel Intercept[®] Spacer
- **BarrierXP ThermD LT SF** – Double-paned insulated glass unit with two panes of Low-E glass (surface 2 and 4) and stainless steel Intercept Spacer
