

LOOK FOR THE NFRC LABEL

The National Fenestration Rating Council (NFRC) is a non-profit industry organization that is committed to providing accurate, fair and reliable testing data to help consumers, architects and builders compare the energy performance of window and door products.

The lower the U-factor, the less energy you'll need to heat your home. The lower the Solar Heat Gain Coefficient (SHGC), the more you'll conserve on air-conditioning.

A LIFETIME OF PROTECTION

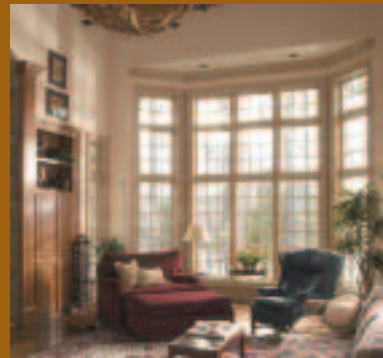

Gentek bay, bow and garden windows carry a lifetime limited warranty—your assurance of lasting performance and genuine value.

For complete warranty information, including limitations, ask your dealer for a copy of the Gentek replacement window warranty.

GLASS BREAKAGE WARRANTY

For added protection, ask your dealer about our optional glass breakage warranty.

GENTEK WINDOWS—ALWAYS A BEAUTIFUL VIEW

Gentek offers a full selection of windows to beautifully accentuate the architectural style of your home. Choose from single hung, double hung, sliding, casement, awning, picture and special shape windows and patio doors. Tested and certified to national industry standards, Gentek windows consistently earn high marks for superior quality and performance.

*It is imperative that your new bay or bow window is sealed and finished properly within the first 30 days after installation.

Failure to properly finish and seal all of the wood components may cause the wood to fade, swell, warp, or develop other defects that would not be covered under your normal product warranty.

BAY, BOW AND GARDEN

Quality-Crafted Vinyl Windows

Open Your Home to the Warmth and Beauty of Natural Light.

GENTEK

OUR WINDOWS. YOUR PEACE OF MIND.

Visually exciting and powerfully built, Gentek windows will dramatically heighten the style and comfort of your home. Equally important, they will deliver true peace of mind that you have chosen a high-performance window from a respected manufacturer. Pride in our products and craftsmanship are at the heart of our commitment to quality. It's what makes our windows among the best in the industry and our service second to none.

Gentek windows are custom-made to your exact specifications and backed by decades of window manufacturing expertise. Engineering, innovation, rigorous testing and stringent quality control are just a few ways that we turn cutting-edge technology into superior windows and satisfied customers. When you choose Gentek windows for your home, you can be assured of the highest levels of performance, beauty and value.

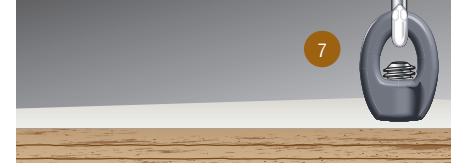

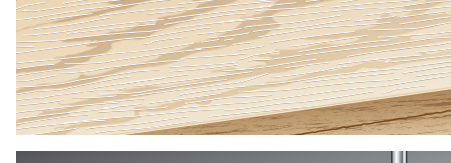

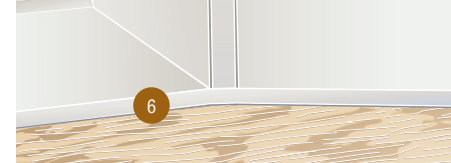

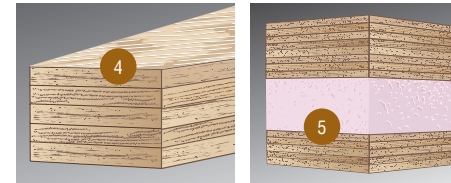

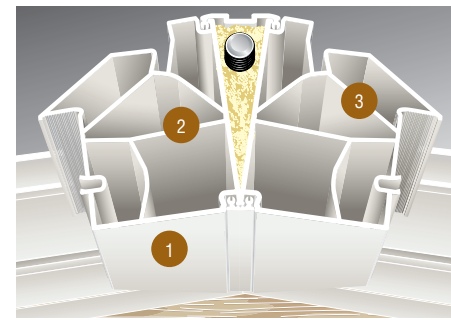

Enhance the architecture of your home with a copper or painted aluminum roof clad kit.

BAY, BOW AND GARDEN WINDOWS

From elegant and traditional to playful and cozy, there's nothing like a bay, bow or garden window to add warmth and charm to a room. Masterfully crafted for style and strength, our windows capture the natural beauty and light of outdoors while lending a deeper dimension to your interior living area.

Each bay and bow window is custom-built for enduring quality and comfort. Choose from double hung, casement and fixed-lite combinations, along with a variety of interior finishes and roof clad kits, to design the ideal window system for your home.

PRECISION-BUILT FROM THE INSIDE OUT

- 1 Solid vinyl color throughout keeps windows fresh and new-looking—virgin vinyl resin won't chip, peel, crack or warp.
- 2 Extruded vinyl frames and sashes enhance thermal efficiency and energy savings.
- 3 Multiple chambers create additional insulation channels between the window units.
- 4 Head, seatboard, and jamb construction are standard in 1-1/4" furniture-grade veneer.
- 5 Optional 3" pre-insulated seatboard is available for added warmth and energy efficiency.
- 6 Head and seatboard are finished in Oak or Birch veneers and ready for painting or staining.*
- 7 Heavy-duty, adjustable turnbuckle cable hanging system prevents possible sagging or bowing and eliminates the need for external braces.

ADDITIONAL FEATURES AND OPTIONS

- Slimline reinforced mullion design provides superior strength and support for the selected components.
- Insulated glass unit with trapped air space achieves year-round comfort and energy savings.
- PPG Intercept® Warm-Edge Spacer System saves energy by reducing the conduction of heat at the edge of the glass.
- Available in a wide selection of elegant interior and exterior colors.
- Fiberglass full and half screens provide ventilation.
- Choose BarrierXP Low-E glass packages for maximum insulating performance and reduction of UV rays.
- Color-coordinated, heavy-duty laminate head and seatboard are available in White, Beige and a variety of woodgrain finishes.

ENVIRONMENTALLY FRIENDLY

Did you know that Gentek vinyl windows are eco-friendly in several ways? Each window is precision-engineered to deliver superior energy efficiency and help reduce the consumption of fossil fuels for heating and cooling. And because they never need to be painted, they also lessen the amount of paint, stain and other maintenance-related products entering the waste stream or polluting the air with potentially harmful organic gasses. As a recyclable material, all in-plant scrap vinyl is reused for other products (such as fencing and decking) to help reduce the volume and environmental impact of waste. Vinyl windows also boast a long service life and typically weigh less than other substrate door products, requiring less energy consumption during transportation.**

HIGH-PERFORMANCE GLASS

You might think of glass as being fragile, yet it's one of the most powerful elements in achieving outstanding thermal efficiency. Windows are 80% glass, so it's wise to choose a glass package that will protect your home from absorbing outside heat in the summer and losing indoor heat during the winter.

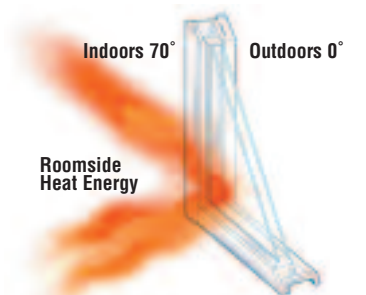

For even greater energy savings, upgrade your windows with one of our BarrierXP insulating glass packages**

to maximize energy efficiency while minimizing the damaging UV rays that cause carpets and furnishings to fade. BarrierXP combines multi-layer low-emissivity (Low-E) glass and argon gas along with the PPG Intercept® Warm-Edge Spacer System for superior energy savings. Many BarrierXP insulating glass packages meet the latest ENERGY STAR® requirements. Consult your window professional for the optimal glass package required for your home and climate zone.

- In summer, BarrierXP reduces solar heat gain by up to 50% to help reduce air-conditioning costs.
- In winter, BarrierXP increases R-value (resistance to heat flow) by more than 50%.

Summer Energy Savings and Comfort
Low-E insulating glass reduces heat penetration from solar energy.

Winter Energy Savings and Comfort
Low-E insulating glass reduces heat loss by reflecting warm air back into your home.

**Optional glass packages include BarrierXP 2 and BarrierXP Plus for additional energy savings. Insulated glass (IG) units that require capillary tubes may experience some argon gas depletion.

ENERGY TAX CREDITS†

Take advantage of temporary tax credit incentives that may be available when you purchase new products that meet energy efficiency guidelines. Gentek windows with various BarrierXP® insulating glass packages may qualify for valuable tax savings. Please see your Gentek Sales Representative for more information and visit www.energystar.gov/taxcredits for complete details.

BAY AND BOW WINDOWS

AN AMBIANCE OF WARMTH AND LIGHT

Our bay and bow windows bring natural beauty and exquisite style together for a home that truly stands apart. Custom-crafted for enduring quality and performance, these elegant yet practical windows lend a dramatic focal point and deeper dimension to any room by extending the interior living area. Whether you're enhancing your kitchen with a generous outdoor view or creating a whimsical reading nook, the graceful curve and subtle sophistication of a bay or bow window is certain to draw admiring glances.

- Heavy-duty vinyl frames and sashes for enduring quality and easy upkeep
- Weathertight insulated glass provides thermal efficiency and energy savings
- Slimline reinforced mullion design ensures superior strength and support for the selected components
- Available in a wide selection of elegant interior and exterior colors
- Head and seatboard are standard in Oak or Birch veneers and ready for painting or staining*
- 3" pre-insulated seatboard option increases energy efficiency
- Optional heavy-duty laminate head and seatboard offered in White, Beige and a variety of woodgrain finishes
- Exterior roof system available with copper or painted aluminum roof clad kits
- Choose double hung, casement or fixed-lite window combinations
- Bay windows are available in 3-lite or box style configurations
- Bow windows are available in 3-, 4-, 5-, and 6-lite configurations

EXTENDED BOX WINDOW

ALWAYS IMPRESSIVE

With its clean-line design and classic good looks, the extended box window commands an extra measure of attention. Dress up any room with this traditional yet distinctive window from Gentek.

- Quality-crafted construction features 1-1/4" Oak or Birch furniture-grade hardwood veneer
- Available in a wide selection of elegant interior and exterior colors
- Exterior projections are available in 7", 9" or 11" extensions
- Window configurations may be designed up to 94" in width and 72" in height
- Choose from 1-, 2-, and 3-lite styles
- Heavy-duty, color-coordinated interior laminate options are available in a variety of woodgrain finishes

GARDEN WINDOWS

AN EVERYDAY PLEASURE

Simple, practical and beautiful—Gentek garden windows instantly summon a warm and homey feel. What better way to capture the beauty of outdoors than with a flourishing indoor herb garden or blooming array of colorful flowers. Performance-engineered with an exceptional design, this versatile window lets you enjoy the pleasure of gardening from the comfort of your home.

- Generous 17" seatboard accommodates a variety of plants
- End casements allow easy venting and are fully screened for enhanced weather protection
- Heavy-duty, fusion-welded sash and mainframe deliver superior strength and stability
- Premium vinyl construction won't chip, blister or peel and never needs to be painted
- Clear 1" thick insulated glass unit provides weathertight comfort year-round
- Sloped top insulating glass panel is tempered for added durability and integrity
- Multi-point locking system for a tighter seal and added comfort
- Available in White or Beige; an optional Light Oak interior finish with a White exterior also is offered
- Head and seatboard also available in Oak or Birch veneer or an easy-care White laminated surface
- Adjustable 3/8" thick glass shelf with polished edges is standard in all garden windows

Weather-tight, fully screened casement with external glazing increases protection from outdoor elements and allows convenient venting of the window.

Sloped top insulating glass is tempered for improved durability and structural integrity. Completely assembled with head and seatboard for easy installation.

DECORATIVE WINDOW OPTIONS

Time-honored craftsmanship and attention to detail beautifully define Gentek's exquisite collection of decorative accents. We have everything you need to let your personal taste shine through.

Corian Seatboards Available in three subtle hues to complement your room décor.

FINISHES

Gentek bay and bow windows are available in a full selection of luxurious colors and warm woodgrains to add custom-crafted appeal to your windows—both inside and out.

Portfolio® Window Color Collection

Exterior Palette ¹	Interior Palette ²
Architectural Bronze	White Woodgrain
Desert Clay	Soft Maple Woodgrain
English Red	Rich Maple Woodgrain
Hudson Khaki	Light Oak Woodgrain
Forest Green	Dark Oak Woodgrain
Castle Gray	FoxWood Woodgrain
American Terra	Cherry Woodgrain
White*	White*
Beige*	Beige*

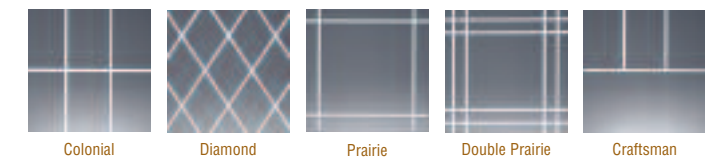

Precision-engineered with state-of-the-art technology, this superb finish is remarkably strong and fade-resistant, as well as highly weatherable, durable, and easy to clean. Patio doors are also available in a matching exterior finish.

¹All special finish exterior colors shown have an extruded White interior; American Terra also is available in a Beige interior.
²All interior woodgrains have an extruded White or Beige exterior—except White Woodgrain, which is available in a Beige exterior only.
 *Extruded color.

INTERIOR GRIDS

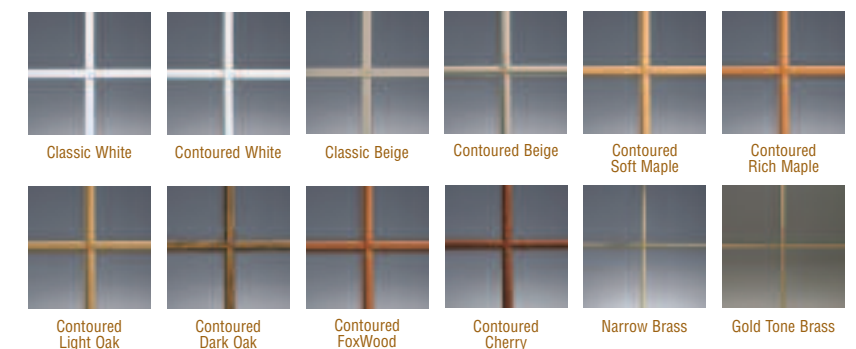

Interior grids add style and balance to the appearance of your windows. All grids are enclosed within the insulated glass unit for easy cleaning.

Grid Patterns

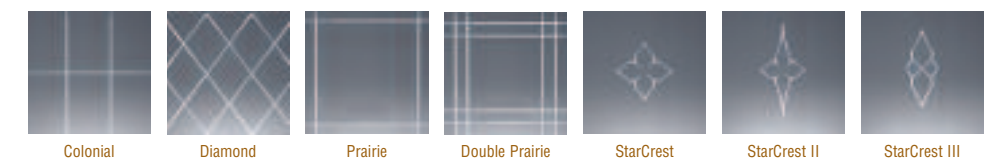

Decorative Grid Patterns:
Colonial—available in Classic, Contoured and Narrow Brass grids
Diamond—available in Classic grids
Prairie and Double Prairie—available in Classic, Contoured and Gold Tone Brass grids
Craftsman—available in Classic, Contoured and Narrow Brass grids for operating and fixed-lite casements only

Grid Profiles

V-GROOVED CUT GLASS

Choose cut or polished V-grooved glass for a subtle touch of elegance.

BEVELED-LEADED GLASS

All leaded glass is handcrafted using hand-cut glass, crystal bevel clusters, and hand-soldered camings. Choose one of our exquisite glass styles with brass, lead or pewter coming to dramatically enhance the beauty of your home.
