A COLLABORATION OF STYLE AND STRENGTH

Equal parts aesthetic beauty and rugged strength, Fairhaven Sound Single Select Shakes & Scallops promise a superior finish for your home.

Integrated Panel Locking System Integrated panel locking system secures panels firmly together for increased strength and structural integrity, as well as a more uniform finished look.

Convenient Installation Guides Self-aligning nail slots and a temperature chart on the side tab help ensure that each panel is properly positioned for potential expansion and contraction in all weather.

Self-Concealing Side Tabs The self-concealing side tabs feature the same cedargrain detail as the panel to hide seams where panels are joined – creating a beautiful, handcrafted effect and a virtually seamless appearance.

Extended Panel Length Up to 40% longer than typical shake and scallop profiles, Fairhaven Sound Single Select's extended length achieves long, uninterrupted lines for a smoother finish.

Variety of Mold Patterns An expanded variety of shake molds creates a random, natural-looking appearance just like actual cedar.

Built Weather-Tough! Meets or exceeds the industry standard for windload performance as tested under the Vinyl Siding Institute Product Certification Program per applicable ASTM standards.

A Sustainable Choice As a durable and recyclable product with a long service life, Fairhaven Sound Single Select Shakes & Scallops conserve wood and other resources used in home construction. And because they never need to be painted, they also help prevent paint, stain and other maintenance-related products from harming the earth.

TRADITIONAL SHAKE

From rustic to refined, our Traditional Shake makes an impressive statement of style. The generous 7" exposure, deep woodgrain texture, and authentic hand-cut appearance gently blend modern practicality with the simplicity and grace of coastal living.

SCALLOP

Picturesque beautifully conveys the essence of our Scallops. Each row of artistically sculpted scallops creates a uniform, elegant appearance, further accentuated by a generous shadow line for added dimension. The ample 6-1/4" exposure and roughsawn texture will give your home the distinctive allure of cedar half-rounds.

CAPE COD SHINGLE

The uniform woodgrain texture and clean-line design of our Cape Cod Shingles call to mind the casual charm of seaside homes. Handsomely crafted in a 5" double-course profile, the siding expertly pairs timeless style with a higher level of craftsmanship and quality.

HAND-SPLIT SHAKE

A standout selection for both its historical beauty and natural appeal, our Hand-Split Shake lends visual interest to any style home. This faithful reproduction features rough-cut edges and a deeply grained, random texture in a 9" profile for the perfect balance of style and substance.
