

**EASY AUTO  
LOCK!**

# 80 SERIES AND 70 SERIES

FUSION-WELDED VINYL WINDOWS

## NEW POSITIVE ACTION LOCK OPTION!

With our new Positive Action Lock (PAL) option, your windows will smoothly close and lock in a single motion. As the sash closes, the locking mechanism is automatically engaged by the keeper and locks the window closed.

- Heavy-duty design features more metal surrounding the lock actuator, ensuring greater stability for a better, more consistent operation
- Endurance tested to over 36,000 operating cycles
- Stainless steel springs resist effects of coastal or humid environments
- Passes forced entry requirements for sliding and hung windows
- PAL can be converted to an ADA PAL lock by replacing the cover
- Available on 80 Series and 70 Series sliding and single-hung windows

### CONTEMPORARY STYLE

The smooth, low-profile cover conceals the screws that secure the locking mechanism to the reinforced sash, creating a clean, sleek appearance with no unsightly screws.

### NEW ADA PAL OPTION

Our ADA PAL option features a matching cover design, with an adjustable pull cord to disengage the lock for easy operation and ADA compliancy.
