CREATE CUSTOM STYLE

Set the stage for creating a beautiful home exterior by exploring a variety of color combinations.

- For a subtle and timelessly sophisticated look, consider a monochromatic color scheme. The similar shades will unify architectural elements and create the appearance of a larger home.
- If you prefer a more dramatic design, choose a contrasting color to accentuate gables, dormers or other areas of interest. Contrasting hues lend depth and visual appeal to the features of the home.
- As a starting point in the design process, begin with three colors. If you opt for two cladding colors, use the darker hue on the bottom. Select a third color for trim details. Further refine your design with an accent of faux stone, brick, shakes or scallops.

SUPERIOR STYLE,
DURABILITY AND
VALUE.

ALIGN IS THE FUTURE OF HOME EXTERIORS – SEE, TOUCH AND FEEL THE DIFFERENCE.

With a lifetime limited warranty and carefree upkeep, ALIGN Composite Cladding is a smart investment that pays off even more the longer you own your home.
