SUPERIOR DESIGN AND CONSTRUCTION

Expertly crafted for enduring style and performance, Gentek Rainware Systems provide essential water drainage and weather protection for your home. The heavy-duty aluminum construction features a premium polyester finish that will maintain its beautiful appearance despite exposure to harsh weather.

Season after season, the gutters, downspouts and other rainware components perform an important job: they capture the rainwater running off your roof to prevent it from infiltrating your home. A properly installed rainware system effectively channels this water to also avoid damaging other areas such as decking, landscaping, soil and concrete.

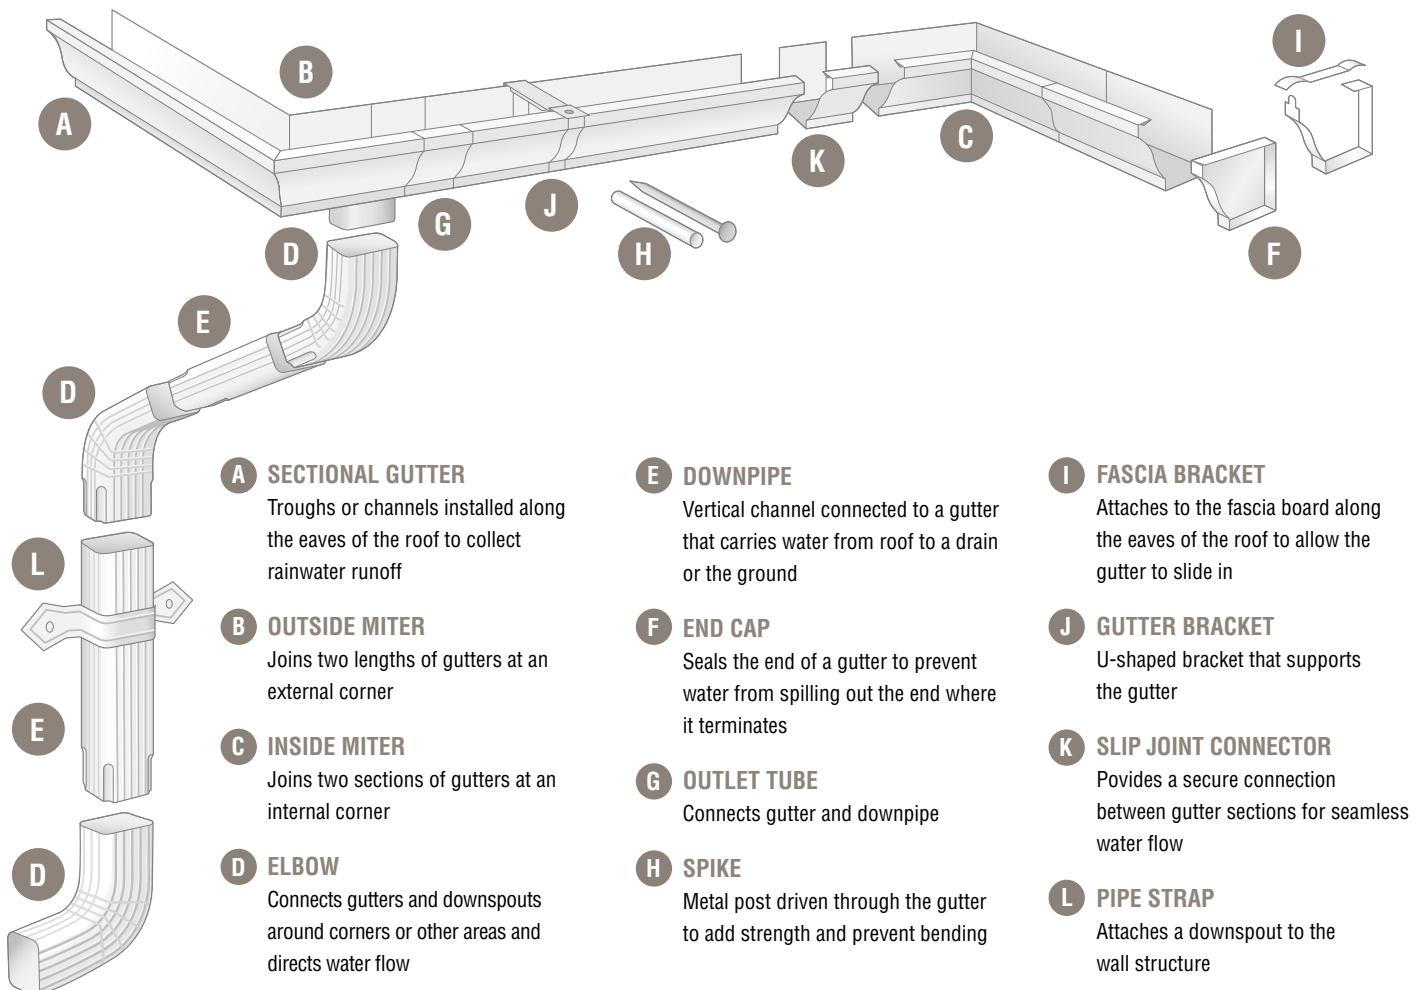

CUSTOMIZED FOR YOUR HOME

Every home has specific climate challenges that should be factored into the rainware structure. With a combination of gutters, elbows, downspouts and miters, your professional installer can create a complete rainware system customized for your home that collects water runoff from the roof and channels it away from the foundation, landscaping and other surroundings. Brackets, hangers and clips firmly connect all components and secure the system in place.

ON-SITE FABRICATION

Gutters fabricated at the job site from Gentek premium gutter coil provide superior form, fit and functionality. The high-performance coil is corrosion-resistant and features a finished side coated with a durable, baked-on polyester coating that resists dirt and stains from environmental elements.

Pre-formed downspouts, elbows, miters and other accessories also are manufactured in matching colors from this same premium coil, while the hangers and utility components are mill-finished metal. From end to end, the complete system is built weather-tough for lasting quality and value.

COLOR PALETTE *

Bright White	Vintage Cream	Thistle	Dover Gray
White – High Gloss	Wicker	Terratone	Charcoal
White – Low Gloss	Canyon Clay	Musket Brown	Bronze
Sandstone	Pebble	Royal Brown	Black
Linen	Brownstone	Sage

*Not all products are available in all colors. Color availability may vary by location. See your Gentek Sales Representative for more information.
Note: Colors may be slightly different from their appearance in this brochure. Make final color selections using actual product samples.

COLOR MATCHING MADE SIMPLE

No need to settle for siding and trim that “almost match.” Our Color Clear Through® collection of customer-preferred hues helps ensure a beautiful color match with other Gentek siding, trim and accessory products. A wide variety of complementing and accenting colors also is offered for expanded design options.

WARRANTY PROTECTION

Gentek Rainware Systems are backed by a 20 Year Limited Warranty – further assurance you have made an excellent selection for your home. For complete warranty information, including limitations, ask your dealer for a copy of the warranty.*
